## DESIGNED IN EUROPE

Universal notebook power adaptor with automatic voltage regulation. Compatible with major notebook brands.

Universal notebook AC adapter for laptop and LCD monitor. Up to 45W power with automatic voltage regulation. High efficiency and top safety protection.

- High efficiency up to 90%. With short-circuit protection.
- Accurate regulated output, low ripple and low interference.
- Automatic voltage regulation in the connectors, with control voltage, preventing any wrong voltage sating damage. To match the notebook.
- Interchangeable connectors.
- Operating temperature 0°C to 40°C. Operating humidity 20-85% RH.
- Worldwide voltage AC 100-240V input.

Note: plug type varies depending on the country.

- No installation required. Simply plug in. Works with other electronic devices like LCD screens.

Input AC:	100-240V 50/60Hz 1,2A
Output DC:	12V 3,33A max. /15V 2,66A max. /16V 2,5A max. /18.5V 2,16A max. / 19V 2,1A máx.
Weight:	250gr.
Dimensions:	95x42x27mm
